

Safety Data Sheet

Compliant with Annex II of REACH - Regulation 2015/830

SECTION 1. Identification of the substance/mixture and company/firm

1.1. Product identifier

Code: ZARA_F4
 Name: COMBICLEAN
 Chemical name and synonyms: OVEN DETERGENTS

1.2. Identified uses related to the substance or mixture and recommended uses

Description/Use: ALKALINE OVEN DETERGENT

Identified Uses	Industrial	Professional	Consumption
oven detergent	-	✓	-

Uses advised against

Do not use for uses other than those indicated

1.3. Information about the supplier of the safety data sheet

Company name: ALI Group S.r.l.
 Address: VIA SCHIAPARELLI 15
 City and country: 31029 VITTORIO VENETO (TV)
 ITALY
 tel. +39 0438 9110
 fax -

email address of the contact person,

In charge of the safety data sheet: lainox@lainox.com
 Head of market release: ALI Group S.r.l.

1.4. Emergency telephone number

For urgent information, please contact

Poison Control Centre Bambino Gesù Children's Hospital, Piazza Sant'Onofrio, 4 00165 Rome Tel.: +39 0668593726
 Univ. Hosp. of Foggia, V.le Luigi Pinto, 1 71122 Foggia Tel.: +39 0881732326
 Hosp. of A. Cardarelli, Via A. Cardarelli, 9 80131 Naples Tel.: +39 0817472870
 Umberto I Polyclinic Poison Control Centre, V.le del Policlinico, 155 00161 Rome Tel.: +39 0649978000
 A. Gemelli Polyclinic Poison Control Centre, Largo Agostino Gemelli, 8 00168 Rome Tel.: +39 063054343
 Univ. Hosp. of Careggi Medical Toxicology, Largo Brambilla, 3 50134 Florence Tel.: +39 0557947819
 National Poison Control Centre for Toxicology Information, Via Salvatore Maugeri, 10 27100 Pavia Tel.: +39 038224444
 Hosp. of Niguarda Ca' Granda, Piazza Ospedale Maggiore, 3 20162 Milan Tel.: +39 0266101029
 Papa Giovanni XXII Hospital, Piazza OMS, 1 24127 Bergamo Tel.: +39 800883300

SECTION 2. Hazard identification

2.1. Classification of the substance or mixture

The product is classified as hazardous pursuant to the provisions under Regulation (EC) 1272/2008 (CLP) (and successive amendments and repeals). The product, therefore, requires a safety data sheet that complies with the provisions of Regulation (EU) 2015/830. Any additional information regarding the risks for health and/or the environment are outlined in sections 11 and 12 of this data sheet.

Hazard classification and indications:

Skin corrosion, category 1A	H314	Causes severe skin burns and eye damage.
Severe eye damage, category 1	H318	Causes serious eye damage.

2.2. Label elements

Hazard labelling pursuant to Regulation (EC) 1272/2008 (CLP) and successive amendments and repeals.

Hazard pictograms:

Cautions: Hazard

Hazard indications:

H314 Causes severe skin burns and eye damage.

Precautionary statements:

P260	Do not breathe dust/fume/gas/mist/vapours/spray.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P303+P361+P353	IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water/shower.
P280	Wear protective gloves/protective clothing/eye protection/face protection.

Contains: SODIUM HYDROXIDE

2.3. Other hazards

Based on the available data, the product does not contain PBT or vPvB substances in percentages over 0.1%.

SECTION 3. Composition/information about the ingredients

3.1. Substances

Information not applicable

3.2. Mixtures

Contains:

Identification	x = Conc. %	Classification 1272/2008 (CLP)
SODIUM HYDROXIDE		

CAS 1310-73-2 $12 \leq x < 13.5$ Met. Corr. 1 H290, Skin Corr. 1A H314, Eye Dam. 1 H318

EC 215-185-5

INDEX 011-002-00-6

Reg. No. 01-2119457892-27

SODIUM HYDROXIDE

CAS 1310-73-2 $2.5 \leq x < 3$ Skin Corr. 1A H314, Eye Dam. 1 H318

EC 215-185-5

INDEX 011-002-00-6

Reg. No. 01-2119457892-27

**CARBOXYLIC ACID OF ALLYL
ALCOHOL**

polymer $1 \leq x < 2$ Skin Irrit. 2 H315; , Eye Dam. 1 H318

The complete test of the hazard indications (H) is outlined in section 16 of the data sheet.

SECTION 4. First aid measures

4.1. Description of first aid measures

EYES: Remove any contact lenses. Rinse immediately with plenty of water for at least 30/60 minutes, while holding the eyelids apart. Seek medical advice immediately.

SKIN: Remove any contaminated clothing. Take a shower immediately. Seek medical advice immediately.

INGESTION: Drink as much water as possible. Seek medical advice immediately. Do not induce vomiting unless expressly authorised by medical personnel.

INHALATION: Seek medical advice immediately. Take the patient outside, away from the site of the accident. If the patient stops breathing, administer artificial respiration. Adopt suitable precautions for the responder.

4.2. Main symptoms and effects both acute and delayed

No specific information is known about the symptoms and effects caused by the product.

4.3. Indication of any requirement to immediately seek medical advice and special treatments

Information not available

SECTION 5. Fire prevention measures

5.1. Extinguishing agents

SUITABLE EXTINGUISHING AGENTS

The extinguishing agents are the conventional kind: carbon dioxide, foam, powder and nebulised water.

UNSUITABLE EXTINGUISHING AGENTS

None in particular.

5.2. Special hazards caused by the substance or mixture

HAZARDS DUE TO EXPOSURE IN THE EVENT OF FIRE

Avoid breathing in combustion products.

5.3. Recommendations for fire fighters

GENERAL INFORMATION

Cool the containers with water jets to prevent the decomposition of the product and the development of substances which could be a health hazard. Always wear the full fire prevention protection equipment. Collect the water used to put out the fire which must not be discharged into the drains. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

EQUIPMENT

Normal firefighting clothing, such as an open circuit, compressed air self-contained breathing apparatus (EN 137), firefighting suit (EN469), protective gloves (EN 659) and firefighter boots (HO A29 or A30).

SECTION 6. Measures in the event of accidental spills

6.1. Personal precautions, protection equipment and procedures in the event of an emergency

Stop the leak if there is no hazard.

Wear suitable protective equipment (including the personal protective equipment under section 8 of the safety data sheet) in order to prevent contamination of the skin, eyes and personal clothing. These indications are valid both for processing technicians and for emergency interventions.

6.2. Environmental precautions

Prevent the product from entering the sewage systems, water courses and ground water.

6.3. Methods and material for containment and cleaning up

Suction the leaked product into a suitable container. Assess the compatibility of the container to use with the product, by checking against section 10. Absorb the remaining product with inert absorbent material.

Ensure adequate ventilation. Disposal of the contaminated material must be carried in compliance with the provisions of point 13.

6.4. Reference to other sections

Any information about individual protection and the disposal are outlined in sections 8 and 13.

SECTION 7. Handling and storage

7.1. Precautions for safe handling

Handle the product after consulting all the other sections of this safety data sheet. Do not disperse of the product in the environment. Do not drink, eat or smoke when using. Remove contaminated clothing and protective equipment before entering eating areas.

7.2. Conditions for safe storage, including any incompatibilities

Only store in the original container. Keep the containers closed in a well-ventilated place, away from direct sunlight. Keep the containers away from any incompatible material, checking against section 10.

7.3. Specific end uses

Information not available

SECTION 8. Exposure control/personal protection

8.1. Control parameters

Legislative references:

GBR United Kingdom EH40/2005 Workplace exposure limits
 GRC Ελλάδα ΕΦΗΜΕΡΙΣ ΤΗΣ ΚΥΒΕΡΝΗΣΕΩΣ - ΤΕΥΧΟΣ ΠΡΩΤΟ Αρ. Φύλλου 19 - 9 Φεβρουαρίου 2012

SODIUM HYDROXIDE

Threshold limit value

		mg/m ³	ppm	mg/m ³	ppm
WEL	GBR			2	
TLV	GRC	2		2	
TLV-ACGIH				2 (C)	

Health - Derived No-Effect Level - DNEL / DMEL

Exposure pathway	Effects on consumers				Effects on workers			
	Acute local	Acute systemic	Chronic local	Chronic systemic	Acute local	Acute systemic	Chronic local	Chronic systemic
Inhalation			1 mg/m ³				1 mg/m ³	

SODIUM HYDROXIDE

Threshold limit value

Type	State	TWA/8h		STEL/15min	
		mg/m ³	ppm	mg/m ³	ppm
WEL	GBR			2	
TLV	GRC	2		2	
TLV-ACGIH				2 (C)	

Health - Derived No-Effect Level - DNEL / DMEL

Exposure pathway	Effects on consumers				Effects on workers			
	Acute local	Acute systemic	Chronic local	Chronic systemic	Acute local	Acute systemic	Chronic local	Chronic systemic
Inhalation			1 mg/m ³				1 mg/m ³	

Key:

(C) = CEILING ; INALAB = Inhalable fraction ; RESPIR = Breathable fraction ; TORAC = Thoracic fraction.

VND = hazard identified but no DNEL/PNEC available; NEA = no exposure expected ; NPI = no hazard identified.

8.2. Exposure control

Considering that the use of adequate technical measures should always take priority over personal protection equipment, ensure good ventilation in the workplace through effective local extraction.

When choosing personal protective equipment, ask your chemical substance suppliers for any advice.

Personal protective equipment must bear the CE marking which indicates compliance with the laws in force.

Provide emergency shower facilities with eye baths.

HAND PROTECTION

Protect hands with category III work gloves (ref. standard EN 374).

When choosing the material of the work gloves, you should consider: compatibility, degradation, breakthrough times and permeation rates.

In the case of preparations, resistance of work gloves to chemical agents must be checked before use, as it is unpredictable. Gloves have a deterioration time that depends on the duration and method of use.

SKIN PROTECTION

Wear work clothes with long sleeves and safety footwear for professional use, category III (ref. Directive 89/686/EEC and EN ISO 20344 standard). Wash with soap and water after removing protective clothing.

EYE PROTECTION

It is advisable to wear a hooded visor or protective visor combined with tightly fitting goggles (ref. standard EN 166).

RESPIRATORY PROTECTION

If the threshold value (e.g. TLV-TWA) of the substance or one or more substances present in the product are exceeded, it is advisable to wear a mask with a type B filter. The class (1, 2 or 3) must be chosen in relation to the limit of use of the concentration. (ref. standard EN 14387). If gases or vapours and/or gases of vapours with particles (aerosols, fumes, mist, etc.), combined filters must be provided.

The use of measures to protect the airways is required if the technical measures are not sufficient to limit the exposure of workers to the threshold values taken into account. The protection offered by the mask is, however, limited.

If the substance is considered odourless or its odour threshold is above the one for TLV-TWA and in the event of any emergency, wear an open circuit, compressed air self-contained breathing apparatus (ref. standard EN 137) or a fresh air hose breathing apparatus (ref. standard EN 138). For the correction choice of respiratory protection devices, refer to standard EN 529.

ENVIRONMENTAL EXPOSURE CONTROL

Emissions from production processes, including those from ventilation equipment, should be checked for compliance with environmental protection regulations.

SECTION 9. Physical and chemical properties

9.1. Information about fundamental physical and chemical properties

Physical state	liquid
Colour	yellow
Odour	odourless
Odour threshold	Not available
pH	13
Melting or freezing point	Not available
Initial boiling point	Not available
Boiling range	Not available
Flash point	Not available
Evaporation rate	Not available
Flammability of solids and gases	not applicable
Lower flammability limit	Not available
Upper flammability limit	Not available
Lower explosive limit	Not available
Upper explosive limit	Not available
Vapour pressure	Not available
Vapour density	Not available
Relative density	Not available
Solubility	soluble
partition coefficient: octanol/water	Not available
Auto-ignition temperature	Not available
Decomposition temperature	Not available
Viscosity	Not available
Explosive properties	not classified as explosive, does not contain explosive substances according to Reg. CLP Art. (14 (2))
Oxidising properties	the product is not an oxidising substance

9.2. Other information

Information not available

SECTION 10. Stability and reactivity**10.1. Reactivity**

There are not particular reaction hazards with other substances under normal conditions of use.

10.2. Chemical stability

The product is stable under normal conditions of use and storage.

10.3. Possibility of hazardous reactions

No hazardous reactions are foreseen under normal conditions of use and storage.

10.4. Conditions to avoid

None in particular. However, the usual precautions used for chemical products should be respected.

SODIUM HYDROXIDE

Avoid exposure to: air, humidity, heat sources.

SODIUM HYDROXIDE

Avoid exposure to: air, humidity, heat sources.

10.5. Incompatible materials**SODIUM HYDROXIDE**

Incompatible with: strong acids, ammonia, zinc, lead, aluminium, water, flammable liquids.

SODIUM HYDROXIDE

Incompatible with: strong acids, ammonia, zinc, lead, aluminium, water, flammable liquids.

10.6. Hazardous decomposition products

Information not available

SECTION 11. Toxicological information

In the absence of experimental toxicological data on the product in question, the possible dangers of the product to the health have been assessed on the basis of the properties of the substances it contains, according to the criteria laid down by the reference legislation for classification. Therefore, consider the concentration of the individual hazardous substances which may be mentioned in section. 3, when assessing the toxicological

effects caused by exposure to the product.

11.1. Information about the toxicological effects

Metabolism, kinetics, mechanism of action and other information

Information not available

Information on probable exposure pathways

Information not available

Immediate or delayed effects and chronic effects due to short or long-term exposure

Information not available

Interactive effects

Information not available

ACUTE TOXICITY

LC50 (Inhalation) of the mixture:

Unclassified (no significant component)

LD50 (Oral) of the mixture:

Unclassified (no significant component)

LD50 (Skin) of the mixture:

Unclassified (no significant component)

SKIN CORROSION/SKIN IRRITATION

Corrosive for the skin

SERIOUS EYE DAMAGE/EYE IRRITATION

Causes serious eye damage

RESPIRATORY OR SKIN SENSITISATION

Does not respond to classification criteria for this hazard class

GERM CELL MUTAGENICITY

Does not respond to classification criteria for this hazard class

CARCINOGENICITY

Does not respond to classification criteria for this hazard class

REPRODUCTIVE TOXICITY

Does not respond to classification criteria for this hazard class

SPECIFIC TARGET ORGAN TOXICITY (STOT) - SINGLE EXPOSURE

Does not respond to classification criteria for this hazard class

SPECIFIC TARGET ORGAN TOXICITY (STOT) - REPEATED EXPOSURE

Does not respond to classification criteria for this hazard class

ASPIRATION HAZARD

Does not respond to classification criteria for this hazard class

SECTION 12. Ecological information

Use according to good working practice, avoiding dispersion of the product in the environment. Notify the competent authorities if the product reaches water courses or if it has contaminated the soil or vegetation.

12.1. Toxicity

SODIUM HYDROXIDE

EC50 - Crustaceans

40.4 mg/l/48h Ceriodaphnia sp.

SODIUM HYDROXIDE

EC50 - Crustaceans

40.4 mg/l/48h Ceriodaphnia sp.

CARBOXYLIC ACID OF ALKYL ETHER

LC50 - Fish

> 100 mg/l/96h

12.2. Persistence and degradability

SODIUM HYDROXIDE

Degradability: data not available

SODIUM HYDROXIDE

Degradability: data not available

12.3. Bioaccumulation potential

Information not available

12.4. Mobility in soil

Information not available

12.5. Results of PBT and vPvB assessment

Based on the available data, the product does not contain PBT or vPvB substances in percentages over 0.1%.

12.6. Other adverse effects

Information not available

SECTION 13. Advice for disposal

13.1. Waste treatment methods

Re-use, if possible. Product residue should be treated as special hazardous waste. The hazardous properties of waste that partly contain this product must be assessed according to the laws in force.

Disposal must be carried out by a company authorised for waste management, in compliance with the national and local legislation.

CONTAMINATED PACKAGING

Contaminated packaging must be sent for recovery or disposal in compliance with national laws for waste management.

SECTION 14. Transport information

14.1. UN NUMBER

ADR / RID, IMDG, IATA: 1824

14.2. UN-Shipping Name

ADR / RID: CAUSTIC ALKALI LIQUID, SODIUM HYDROXIDE N.A.S.

IMDG: CAUSTIC ALKALI LIQUID, SODIUM HYDROXIDE N.O.S.

IATA: CAUSTIC ALKALI LIQUID, SODIUM HYDROXIDE N.O.S.

14.3. Transport hazard classes

ADR / RID: Class: 8 Label: 8

IMDG: Class: 8 Label: 8

IATA: Class: 8 Label: 8

14.4. Packing group

ADR / RID, IMDG, IATA: II

14.5. Environmental risks

ADR / RID: NO

IMDG: NO

IATA: NO

14.6. Special precautions for users

ADR / RID:	HIN Kemler 80	Limited Quantities: 1 L	Tunnel restriction code: (E)
------------	---------------	----------------------------	---------------------------------

IMDG:	Special provision: - EMS: F-A, S-B	Limited Quantities: 1 L
-------	---------------------------------------	----------------------------

IATA	Cargo	Maximum Quantities: 30 L	Packing instructions: 855
	Pass.	Maximum Quantities: 1 L	Pack ing instructions: 851
	Special instructions:	A3, A803	

14.7. Dry bulk carrier according to annex II of MARPOL and IBC code

N.A.

SECTION 15. Information on regulation

15.1. Legislative and regulatory provisions on health, safety and the environment specific to the substance or mixture

Seveso category - Directive 2012/18/EC: None

Restrictions on the product or substances contained in it according to Annex XVII Regulation (EC) 1907/2006

Product

Point 3

Substances in Candidate List (Art. 59 REACH)

Based on the available data, the product does not contain SVHC substances in percentages over 0.1%.

Substances subject to authorisation (Annex XIV REACH)

None

Substances subject to export notification obligation Reg. (EC) 649/2012:

None

Substances subject to the Rotterdam Convention:

None

Substances subject to the Stockholm Convention:

None

Health checks

Workers exposed to this chemical agent which is hazardous to the health must undergo health monitoring carried out according to the provisions of art. 41 of Italian Leg. Decree 81 of 9 April 2008 unless the risk for the health and safety of the worker has been deemed irrelevant, according to the provisions of art. 224 paragraph 2.

15.2. Chemical safety assessment

A chemical safety assessment has not been produced for the mixture and the substances contained in it.

SECTION 16. Other information

Text of the hazard indications (H) quoted in sections 2-3 of the data sheet:

Met. Corr. 1	Substance or corrosive mixture for metals, category 1
Skin Corr. 1A	Skin corrosion, category 1A
Eye Dam. 1	Severe eye damage, category 1
Skin Irrit. 2	Skin irritation, category 2
H290	May be corrosive for metals.
H314	Causes severe skin burns and eye damage.

H318 Causes serious eye damage.

H315 Causes skin irritation.

KEY:

- ADR: European agreement for the transport of hazardous goods by road
- CAS NUMBER: Chemical Abstract Service Number
- EC50: Concentration that affects 50% of the population subjected to tests
- EC NUMBER: Identification number in ESIS (European archive of existing substances)
- CLP: Regulation EC 1272/2008
- DNEL: Derived No-Effect Level
- EmS: Emergency Schedule
- GHS: Global harmonised system for the classification and labelling of chemical products
